SWS UK

From security and safety to styles and finishes, SeceuroGlide has it all.

At first glance, you'd be forgiven for assuming that all garage doors are the same. Look a little closer and you'll discover that SeceuroGlide has taken garage door design and technology to the next level.

Developed by industry experts, SeceuroGlide Garage Doors are packed full of clever and unique features, making them the number one choice for quality, safety and security.

- Choice of roller and sectional garage doors
- Electric operation at the touch of a button
- Insulated cores keep the heat in and cold out
- Advanced security features
- Space-saving designs mean you can park right up to your door
- Choice of powerful motors with up to 7-year automation warranty
- Enhanced safety features built in as standard
- 2 stylish handsets included with every door

SeceuroGlide Original: Rosewood Woodgrain

SeceuroGlide Manual: Anthracite

An elegantly simple, yet well proven design.

SeceuroGlide is robust, reliable and durable – offering secure protection for your car and home.

A choice of low maintenance finishes, insulation and the convenience of remote automatic operation powered by a high quality SeceuroDrive Motor as standard make SeceuroGlide Roller Garage Doors an excellent all round choice.

SeceuroGlide's aluminium slats lock into position to resist attack by intruders, while advanced insulation and brush sealing keeps out the cold and makes the door as weatherproof as it is secure. Vertical opening means you can make maximum use of your drive and garage space – parking safely just inches from the door.

SeceuroGlide Roller Garage Doors are supplied complete with your choice of remote control, SeceuroSense Plus or Somfy Rollixo. You'll have a choice of handsets and the control equipment will include a courtesy light, bottom slat transmitter, safety edge and manual controls to operate the garage door.

A wide choice of finishes including Woodgrain and Painted Woodgrain help you to match your door to existing paintwork or woodgrain double glazing for a coherent look to your home's exterior. Our SeceuroGlide Original and SeceuroGlide Excel is also available powder coated to any RAL or BS number for a surcharge.

SeceuroGlide Excel combines all the benefits of SeceuroGlide Original with an even higher security specification, and is officially tested and approved to Police and insurance standards. Available at a surcharge on the price of a SeceuroGlide Original.

SeceuroGlide | LT
Standard, Insulated Garage Door

SeceuroGlide | Original
Secure, Insulated Garage Doors

SeceuroGlide | Excel
High Security, Insulated Garage Doors

Aluminium End Plate

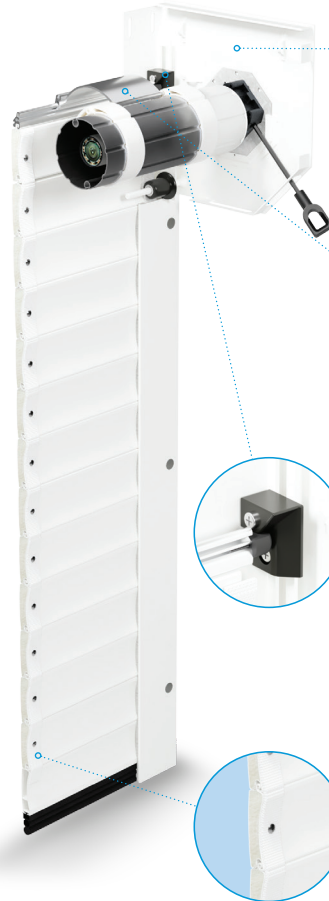

Standard, aluminium cast end plate.

Standard Locking System

A 70 mm axle alongside spring loaded plastic locking straps secure the standard SeceuroGlide LT.

Endlocks

Crimped and stapled endlocks used to secure the curtain in operation.

Steel End Plates

Steel end plates on the SeceuroGlide Original & Excel provide a sturdier design and increased security when compared with aluminium end plates.

Strength & Security

100 mm fluted axle, extruded aluminium hinges & top rail, provide greater strength when the door is in operation and in the locked position.

Unique Locking System

Both the Original and the Excel come with auto locking as standard for greater security, preventing the door from being lifted by an intruder. Centralised locking blocks ensure better running of the door during operation.

Security & Noise Reduction

Webbing on each side of the curtain provides additional security whilst also reducing the noise made by the curtain in operation.

Reveal Fit

The SeceuroGlide Excel boasts Secured by Design and insurance approved Level One Security Rating for internal face and reveal fixtures.

Secured by Design

Upgraded 90 mm channels as standard, work alongside locking bottom slats to provide greater security, one of many features which make this door accredited by Secured by Design, even on between fit installations. Locking bottom slat on the SeceuroGlide Excel is designed to prevent the door being pushed out of the guides by an intruder.

SECURE

VERY SECURE

ULTRA SECURE

SeceuroGlide | Original
Secure, Insulated Garage Doors

SeceuroGlide | Excel
High Security, Insulated Garage Doors

SeceuroGlide Original: Anthracite

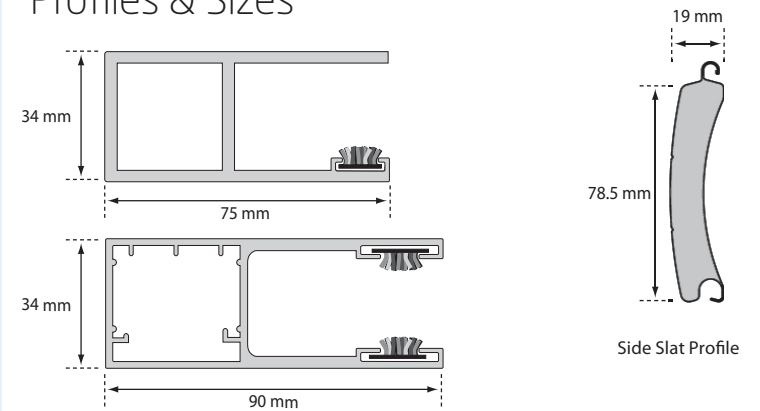

SeceuroGlide Excel: White

Exceptional design and security.

Since the introduction of our hugely popular SeceuroGlide Original back in 1997, we have gone on to develop a series of garage doors which address everything from security and strength, to aesthetics, clever design and ease of use. In addition to the Secured by Design accreditation of the Original, the Excel also meets the higher specification set by the LPCB to create the most advanced roller door on the market.

Profiles & Sizes

SeceuroGlide Excel guide rail notes:

- 90 mm guide rails supplied as standard on SeceuroGlide Excel.
- Reveal fitted guide rails require steel reinforcement plates.

Unique locking system

Both the Original and the Excel come with auto locking as standard for greater security.

Webbing

Webbing provides additional security, weatherproofing and noise reduction.

Strength and Security

100 mm fluted axle, extruded aluminium hinges and top rail make for a secure operation.

SeceuroGlide LT: Fir Green

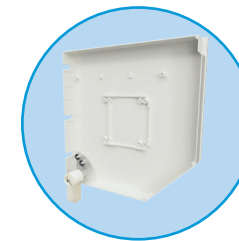

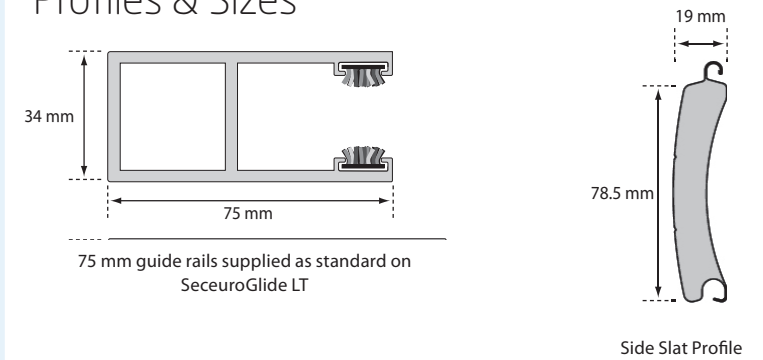

SeceuroGlide LT: Black

The versatile roller garage door.

The entry level SeceuroGlide LT has been created as the perfect solution for those wanting to invest in the look and feel of the SeceuroGlide Original but without a need for all of the high security benefits and built-in noise reduction features offered by the standard SeceuroGlide product. Combining space saving vertical operation with the benefits of an insulated profile and the convenience of electrical operation the SeceuroGlide LT provides a made to measure solution to give lasting value to your property.

Profiles & Sizes

Aluminium End Plate
Standard, aluminium cast end plate.

Standard Locking System
Improved aluminium locking straps secure the LT.

Endlocks
Endlocks used to secure the curtain in operation.

If you do not wish to take advantage of this manufacturing process, there will be a **£15 net discount**.

SeceuroGlide Compact: White Colour Finish

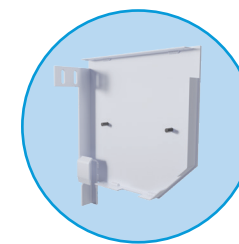

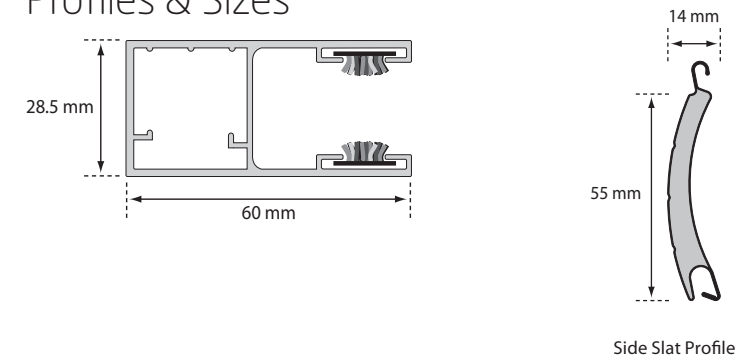

SeceuroGlide Compact: White Colour Finish

SeceuroGlide Compact internal/external fitting roller garage door.

The SeceuroGlide Compact has been developed especially for garages with limited headroom. SeceuroGlide Compact's insulated aluminium slats are narrower than those used for the SeceuroGlide allowing a tighter, smaller coil which requires just 8" (205 mm) clearance above the opening height. An extensive range of sizes also means openings of up to 3000 mm wide (Overall Guide Width) can be accommodated.

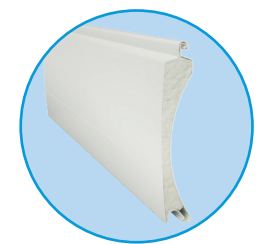

Profiles & Sizes

Steel End Plate
Extruded steel end plates for added strength and durability.

Improved Locking System
Improved locking system with reinforced locking straps for added peace-of-mind security.

Slimline Design
Slimline insulated slats reduce headroom space needed by 31%.

SeceuroGlide Manual: Agate Grey Colour Finish

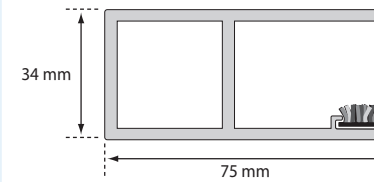

SeceuroGlide Manual: Anthracite Colour Finish

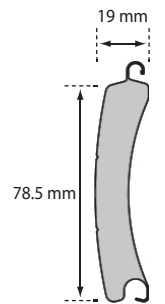

SeceuroGlide Manual the only insulated manual roller garage door on the market.

Developed to the same high standards and build quality as the SeceuroGlide range, SeceuroGlide Manual offers the ideal solution for applications where electricity is not available. The SeceuroGlide Manual has been engineered with ease of use in mind to provide the smoothest operation, whilst still offering the high levels of security and insulation.

Profiles & Sizes

75 mm guide rails supplied as standard on SeceuroGlide Manual

Side Slat Profile

Smooth Operation

The rolling bracket ensures smooth operation and reduces wear.

Strengthening Bottom Slat

Patented bottom slat profile provides strength and aids operation.

Insulated Slats

Foam filled aluminium slats.

STANDARD COLOURS

Powder coated guide rails and bottom slats to match the curtain colour are supplied as standard.

End Plates: Aluminium, white or brown as standard. Other colour options are available at a surcharge of **£34.52 per pair**.

Guides Rails: Other non standard colours available at **£51.59 per pair**.

PLEASE NOTE: Painted Woodgrains and Foiled Woodgrain Colours are not available on our SeceuroGlide Manual Garage Door.

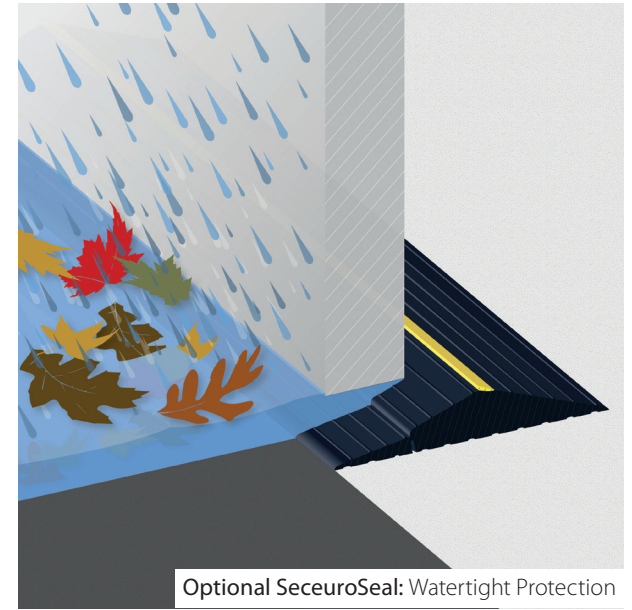

KEY OPERATION

The key operated lock is located in the middle of the door. Integrated handles are located in the middle and at the bottom for convenient operation from inside or outside the garage.

In partnership with the Weather Defender

SECEUROSEAL

SeceuroSeal provides a watertight seal and a physical barrier to prevent water and debris entering the garage. Particularly useful for garages with uneven floors, or those that lie at the bottom of a sloping driveway, SeceuroSeal is fitted on the ground underneath the door and has been developed to ensure garages are kept dry and clean, even in the worst of the British weather.

SeceuroSeal is supplied flat in pre-cut lengths for **£27.90 per metre**. SeceuroSeal Adhesive (290ml) is available for **£18.16 each**.

NEW Anthracite Smooth Visio

Make an Entrance with SeceuroGlide Sectional Garage Doors.

By choosing a SeceuroGlide Sectional garage door, you are investing in a product that has it all; security, kerb-appeal, ease of operation and choice.

Providing reliable performance when you need it most, SeceuroGlide Sectionals are designed to accommodate everyday modern life, yet every bespoke door can be configured to match your own personal style and requirements. With an emphasis on choice, you are in control of how your door is operated (choose from manual or electric) and with an extensive choice of colours, finishes, panels and accessories, how your door looks is down to you.

Good looks doesn't mean a compromise on safety as every electrically operated SeceuroGlide Sectional has obstacle detection built into the motor, which means it will never close when anything is detected in its path, providing perfect peace of mind for all the family.

A Smart Way of Living

With easy installation and programming, smart controls from Somfy enables you to operate your garage door, motorised blinds, gates, awnings and lights at anytime, from anywhere, all in one place.

Somfy: TaHoma Switch

EASY HOME AUTOMATION

- Easy plug in and go set-up
- Can be installed anywhere in your home thanks to WiFi connectivity
- Customise each button to create your own personalised scenarios
- Operate everything from one place with the Somfy app
- Convenient voice control for on-the-go operation
- Compatible with over 300 products including Amazon Alexa, Google Home, Sonos, Hive, IFTTT and many more

NEW CONNECTIVITY KIT

The new Connectivity Kit from Somfy is a great value home automation hub. With more basic functions, it is ideal for homeowners looking for smart-home connectivity without the need for some of the advanced features available with the TaHoma switch.

IMPORTANT INFORMATION

SAFETY & COMPLIANCE

- The SeceuroGlide range is fully compliant with the latest UK product directives and standards including BS EN 13241-1 applicable from the 1st May 2005.
- To ensure compliance with the Construction Products Regulation SeceuroGlide Compact must be installed with either a SeceuroSense Plus / Rollixo remote control or a 'hold-to-run' switch or key switch.
- Antidrop devices are supplied when required at no extra cost.
- We recommend the use of photocells in addition to the standard bottom slat sensor in garages where a vehicle will be parked close to the door. Where a door opens directly onto a pavement or in a public area, a combination of bottom slat sensor and photocells is a statutory requirement.
- When operating a garage door with Somfy home automation equipment, the door must be fitted with photocells. If ordering photocells retrospectively, the panel will need to be checked for compatibility. For more information please contact our Technical Support line on 01524 772 400.
- When a SeceuroGlide Sectional door is supplied motor ready, the installer is required to carry out force testing and is responsible for ensuring the results are within the permitted force.

COLOURS & FINISHES

- The printing process does not allow exact reproduction of the paint colours. If you are unsure of your colour choice please ask your supplier for a sample. Colour references quoted are the nearest standard RAL or BS number to the colours used. They will not be an exact match and are intended as a guide only.
- Doors are supplied with frames, guides, fascias, boxes, bottom slats, locking slats, vision slats and ventilation slats in either a solid powder coated painted finish or a wood effect finish in the best colour to match the door. Due to the manufacturing process, it may not be possible to obtain an exact match and the texture of the finish may vary.
- Multiple doors should be ordered together to obtain the best colour match, bearing in mind the limitations of the materials used in construction.
- Powder coated curtains in a custom colour are available on the SeceuroGlide Original and Excel up to 4500mm wide only.
- Custom colour garage doors are finished in a low gloss finish which is similar in gloss level to the pre-coated colours. Where the curtain is powder coated a custom colour, the guide rails, bottom slats, optional fascias, vision panels and end plates will be powder coated to match FOC. Some custom powder coated colours may be subject to an additional surcharge.
- Due to the powder coating process, an un-painted area of each slat is visible on the quirk when the door is opening/closing. This should not be visible when the door is in the closed position. To mitigate this, we recommend purchasing powder coated doors with a full box or 45° box cover.
- When Painted Woodgrains are supplied with a colour matched box, end plates and guides, the following RAL are used: Golden Oak RAL 8003, Irish Oak RAL 1011, Rosewood RAL 8017.
- Foiled Woodgrains are subject to a surcharge. Additional Renolit woodgrain finishes are available at the same cost as the standard Foiled Woodgrain colours, however longer lead times may apply.
- SeceuroGlide Compact textured woodgrain doors are supplied with matching bottom slats and brown inner face, guides, end plates and half box as standard.

- For woodgrain effect doors, any vision/vented slats will be supplied in a solid colour nearest to the colour of the woodgrain. Vision slats are NOT available on the Compact or the Manual.
- The visual panel configuration on sectional doors varies depending on the height and/or width of the door. The appearance of different sized doors made from the same panel can vary significantly.
- The nature of roller garage doors means marking may appear on the internal side of the slats over time. Occasionally some marking may occur at the top of the concave (coil) side of the curtain over time, particularly on the Compact and LT. This is unavoidable and due to prolonged contact with the locking system. On doors which are installed externally this will be visible on the outside.
- The factory application of the paint finish involves an automated process and this may result in minor blemishes or slight inconsistencies in the paint.
- We recommend that you perform a visual quality check on installation. Carry out the quality check in natural daylight, not direct sunlight. Stand at a distance of 3 metres from the product to view the overall appearance.
- The product is acceptable if, taking into account the facts below, none of the following is readily visible on the face of the product:
 - Marks or distortions associated with the manufacturing process
 - Minor indentations, marks or scuffs on the surface
 - Paint or stain blemishes
- While weathering and sun exposure can cause the exterior surface to fade, colour change or fade will be limited and uniform.

PRODUCT CARE

- Correct operation and care of your SeceuroGlide door in accordance with the official Operating & Maintenance Manual will prolong the life of your door and minimise the likelihood of issues.
- The door needs wiping with a damp cloth and a mild detergent to remove any excessive dirt/grime to maintain its appearance and to reduce the risk of the surface being damaged.
- The floor must be smooth, level and kept clear of dirt and debris, which can cause deterioration of the rubber seal.

EXTREME WEATHER CONDITIONS

- High winds and high temperatures can cause increased deflection of the door. It is the installer's responsibility to ensure that the door is spaced off the wall sufficiently to allow for door movement during these extreme weather conditions.
- Darker coloured double doors that are exposed to significant direct sunlight may be susceptible to expansion which may interfere with the operation of the door.
- If a door is situated in an exposed location and subjected to very high winds and driving rain, SeceuroGlide does not guarantee against water ingress. As part of the product's testing for the CE or UKCA marking, the product has not been tested against this and as such is classified as NPD (No Performance Declared).
- Whilst the garage door profiles and panels are primed and coated for the external environment – any doors fitted in coastal environments may be at risk of deterioration due to the weather conditions. Ensure you keep your door clean and follow the instructions for cleaning the door in the Operating & Maintenance Manual.

- Regular cleaning of products in 'high corrosive areas' such as within 2 miles of the sea is especially important. Your door should be cleaned thoroughly weekly using warm water and mild detergent with a soft cloth or sponge. Allow to dry naturally. Never use strong detergent, abrasive, caustic or solvent-based cleaners.
- In the event of extreme weather conditions, vision slats will be susceptible to water ingress and may cause the door to move in extreme gales.
- SeceuroGlide Original and Excel doors tested to a minimum Class 2 wind resistance classification, which is equivalent to 59mph winds (Force 10 Storm).
- SeceuroGlide Sectional Doors tested to a Class 5 wind resistance classification, which is equivalent to 114mph winds (Force 14 Storm).

FITTING

- SeceuroGlide Excel must always be fitted internal face fitted or reveal fitted.
- When fitted externally SeceuroGlide Original and SeceuroGlide Compact will always be supplied with a full box.
- SeceuroGlide Manual can only be fitted internally.
- A low level override option is not available for SeceuroGlide Excel. Where the garage door is the only means of exit from a garage, a low level override can be supplied, however this will affect the Level 1 certification and SBD certification will not be supplied.
- If vented slats are selected as an option on SeceuroGlide Original or Excel, they will be supplied, however, this will affect the Level 1 and SBD accreditation and the security certification will not be supplied.
- Unless requested otherwise, when installed internally, tubular motors will be fitted on the left-hand side of each door (when viewed from inside the garage looking out). Alternatively, unless requested otherwise, when installed externally, tubular motors will be fitted on the left-hand side of each door (when viewed from outside the garage looking in).

WARRANTIES

Peace-of-Mind Warranties

- The SeceuroGlide warranty covers parts only and does not cover labour costs or consequential costs, including but not limited to call-out fees, transport costs and costs remedial work for removing and/or re-installing faulty parts.
- SWS UK will replace or repair any components of our products where the manufacturing process has resulted in a defect occurring during the relevant period, subject to the exceptions and conditions set out below.
- For all replacement electrical parts, the warranty period is 12 months or the remainder of the warranty period (whichever is the longest).

The warranty does not cover the following:

- ✗ Any marks, distortion, stains, blemishes, indentations or scuffs which are not observable from at least 3 metres away in natural light (not direct sunlight).
- ✗ Defects which are as a result of:
 - Incorrect installation of the product, not following SWS UK's installation instructions.
 - Incorrect or lack of proper care and maintenance of the product in accordance with SWS UK's Operating & Maintenance Manual.
 - Incorrect operation of the product.
 - Any modifications made to the product made by anyone other than SWS UK.
 - Normal wear and tear.
 - Accidental or malicious damage.
 - Impact damage or scratches, dents, scuffs or other minor abrasions.
 - Use or attempted use of non-SWS UK spare parts.
 - Repairs or attempts at repairs undertaken by any person other than someone specifically authorised by SWS UK.
 - Any failure of masonry or other structures on to which the product has been fixed.
 - Any attempt to reduce operating clearances by means of infills or draughtproofing.
 - External influences such as extreme or abnormal weather conditions, fire, water, salts, chemicals and bird droppings.
 - Any fault or surge in the customer's electricity.
- ✗ Rust or corrosion caused by exposure to saltwater or salty air for products installed within **500 metres of the sea** or a large body of saltwater. For products installed within 2 miles of the sea, the exterior finish of the product is guaranteed for a limited period of 2 years.
- ✗ Consumables such as fuses, light bulbs or batteries.
- ✗ Indirect, special or consequential loss or damage howsoever caused, including remedial work costs, call-out fees, tool or plant hire and transport costs.

Warranties

SeceuroGlide Garage Doors are guaranteed against defect of material or workmanship by SWS UK with a parts only warranty, subject to correct installation, maintenance and operation:

Roller Garage Doors

- **Curtain finish:**
 - Standard Colours – 5 years
 - Painted Woodgrains – 5 years
 - Foiled Woodgrains – 10 years
- **Motor & control unit:**
5 years as standard, or 7 years when you purchase:
 - A SeceuroDrive motor with a SeceuroSense Plus control unit**OR**
 - A door with **EITHER** a Somfy motor or control unit.Subject to online warranty registration within 3 months of installation - excludes the LT.

Sectional Garage Doors

- **Panel finish:**
 - Un-painted panels – 10 years
 - Painted panels – 5 years
- **Black Edition motor operator** – 5 years
- **Somfy motor operators** – 7 years (subject to online warranty registration within 3 months of installation). 5-year warranty applies if the product is not registered.

All Doors

- **Mechanism & hardware** – 5 years
- **Perishable rubber parts** – 2 years

Register Your Warranty

You must register your warranty at www.seceuroglide.co.uk/warranty to activate your extended product guarantee. It takes just a few moments and also gives you easier access to maintenance and operation information, spare parts and warranty claims.

Regular Servicing

To ensure the longevity and continued good operation of your SeceuroGlide Garage Door, it is recommended that your door is serviced by a trained engineer every 12 months. You may be required to show a full service record for the product when raising a warranty claim.

DELIVERY, PACKING & WARRANTIES

Delivery Charges	Price (£)
Over £500 net on standard run	Nil
Under £500 net on standard run	52.45
All orders required on a different day to standard delivery run	POA
Collection from distribution depot	Nil
Pre agreed time slot for standard deliveries	POA
Site delivery charge one man offload	76.79 extra

Devon & Cornwall	14.99
Central London	14.99

Delivery Service

Our standard delivery service covers England and Wales weekly and Scotland fortnightly. Our pricing includes delivery on all orders over £500 on our standard weekly service. Additional chargeable deliveries can often be arranged with your internal account manager. We also offer home/site delivery service options with one or two men depending on the size of delivery and site conditions. Delivery confirmations for our own dedicated service will be emailed or texted the previous afternoon to confirm if AM or PM the following working day. Please ensure an email address and/or mobile number is supplied on your order.

IMPORTANT DELIVERY NOTES: Site deliveries will only be made if the installer is in attendance to assist off loading or if extra help with off loading has been arranged. The most cost effective and safest way of delivering orders is via our own transport

For urgent orders in certain areas of the country, collection is possible from our 3 distribution depots (must be collected within 24 hours):

South (Heathrow)

Units 2, 3 & 4, Lakeside Industrial Estate, Lakeside Road, Colnbrook SL3 0ED

Midlands (Willenhall)

DX Freight, Unit 1 Bays 1, 2, 3 East Acre, Off Long Acre, Willenhall WV13 2JZ

Bristol

Jupiter Road, Patchway, Bristol BS34 5BW

COMPONENT ORDERS

All small component orders required next day must be received by 2 pm the day before delivery. Orders placed on a Friday must be received by 12 noon for delivery on Monday.

If you require powder-coated items, please allow an additional 24 hours at least from the receipt of order. Items for assembly need to be booked in for manufacturing – for example complete shutter curtains. Please allow a minimum of three working days depending on the delivery method.

Regrettably it is not possible to send items over 5 m in length by overnight carriers.

CRATE CHARGES

We can offer delivery by crate on a POA basis. Please speak to Customer Services.

SWS UK is proud to be an official supporting supplier of the Door Hardware Federation. In line with SWS UK's policy of continuous product development, we reserve the right to make changes without prior notification. All information is believed correct at the time of publication, errors and omissions excepted.

DELIVERY CHECK-LIST

A. Pre-delivery

- A postcode must be supplied for all delivery addresses.
- We currently operate a range of delivery vehicles. It is therefore important to check the lorry's dimensions when arranging a delivery for the first time.
- If you require a delivery to site you must supply us with a contact name and a contact telephone number of the person who will assist the driver to unload.

B. Receipt of goods – own premises

- We require a person to assist off-load, check and sign for goods.
- For large deliveries, please ensure you have several people to assist, this will minimise any delays for subsequent customers.
- Deliveries received must be checked before signing the delivery note. It is not possible to claim compensation for damaged or missing items unless highlighted on the drivers delivery notes. If possible take a copy of this documentation for future reference.

C. Receipt of goods – to site

- Deliveries will only be made to site if an installer is present to assist the driver with unloading and to check and sign for the goods.

- For large deliveries, please ensure you have several people to assist, this will minimise any delays for subsequent customers.
- Before the goods arrive, please prepare a location to unload and store the items safely and securely.
- Deliveries received by overnight carrier must be checked before signing the delivery note. It is not possible to claim compensation for damaged or missing items unless highlighted on the drivers delivery notes. If possible take a copy of this documentation for future reference

D. Claims for damages

- Please check the contents of your order against the delivery note on the day received. Care should be taken when using sharp objects to cut through the packaging.
- Claims for missing or damaged items will only be processed if the drivers delivery note has been signed for as damaged or missing and must be reported within 2 days of delivery.

IF YOU SUSPECT DAMAGE Please fully inspect the product prior to signing. If the product is damaged, clearly state "DAMAGED" when signing the consignment note. Signing as "Unchecked" is insufficient.
