The perfect match for contemporary house designs

Coastal Range

Doors up to 8'0" (2438m) wide have corrosion protected bonded steel bracings for excellent strength.

Doors over 8'0" wide have steel bracings that are also bonded over with GRP to provide additional strength for larger doors.

Coastal Range up and over garage doors

Wessex Doors is Europe's largest manufacturer of low maintenance GRP (Glass Reinforced Polyester) garage doors and a leading innovator in the field of garage door design. The Coastal range of up and over doors in pastel shades is the latest development that is a perfect match for the contemporary architectural styles popular on new housing developments.

GRP is an incredibly strong, dent resistant modern composite laminate with a better strength to weight ratio than steel. The door face is devoid of joints, seams, rivets or fastenings to detract from its good looks. All doors are supplied fully finished, won't warp, shrink or rust and are virtually maintenance free.

Factory Fully Finished

The Wessex Coastal Range combines a beautiful timber grained door with traditional and exclusive styling designed to complement any home. The Pastel shade of the door is made from coloured GRP at the factory and requires no on-site finishing.

In addition to the designs shown here, all door styles from the full Wessex range are available in the Coastal colours. A RAL colour matching service is also available.

Strength Too!

Bonded steel bracings ensure the doors has strength and resistance to distortion. The Coastal range is built with a white finish to the inside of the door panel that maximises light reflection within the garage. All doors are CE marked in compliance with European legislation.

Optional Pre-Fitted Frames

All doors are available with the option of a pre-fitted steel frame that provides simple installation and a stable platform for door operation. Canopy door frame uprights are 54mm wide as standard, with 68mm wide available as an option (please specify with order) and the head is 68mm high. Retractable door frame uprights are 68mm wide as standard and the head is 68mm high.

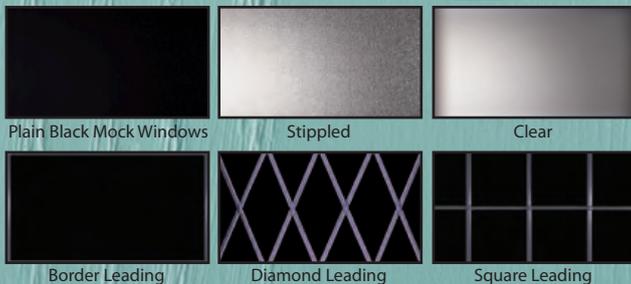

Frames have an exterior powder coating available in white, brown, black and anthracite grey. Please specify the colour required when ordering.

Windows

Windows are available in mock black, stippled and clear with the option of border, diamond or square leading.

Windows are available on doors marked 

Up & Over Sizes

All styles are available in standard sizes to suit most popular openings and made to measure.

Coastal doors feature a choice of canopy or retractable lifting gear. Retractable gear's cranked lifting arms give full drive-through width at wing mirror height for most saloon cars. The further option of a powder coated or steel frame for ease of fitting provides a complete 'low maintenance' solution.

Security

An elegant handle, secured with a key operates the effective multi-point lock latches that hold the door securely closed.

General Information

- **HANDLE POSITIONS** These will vary between canopy and retractable doors of the same style and between doors of different heights of the same style with the same gear.
- **GLAZED G.R.P. DOORS** All window design doors are fitted with standard black opaque windows, which cannot be seen through. Clear and stippled translucent windows are available as options on all these doors.
- **END STILES** Width of end stiles will vary between doors of the same style of different widths - see our website for further details and calculations.
- **PHOTOGRAPHY** All door images in this publication are of 7'0" x 7'0" (2134mm x 2134mm) sized single doors.
- **COLOURS** Colours shown in this publication are for guidance only. For accurate colours please request to see a current sample.
- **TRANSLUCENCY** Translucency of the door panel may vary when viewed from the inside on a bright day due to variations in laminate thickness. This does not represent a manufacturing defect and overall performance is not affected.

Guarantee

- Wessex garage doors are guaranteed against any form of manufacturing defect for a period of **2 years** from the date of original purchase.*
- Wessex electric operators are guaranteed against any form of manufacturing defect for a period of **2 years** for mechanical elements, motors and transformers and for a period of **2 years** for other electronic and radio equipment.*
- The Exterior finish is guaranteed to provide an effective weatherproof membrane that will resist perforation of the substrate from the weather side due to corrosion for a period of **2 years**.*
- Colour change or fade to the exterior surface will be limited and uniform for a period of **2 years**.*

*Terms & conditions apply - see price list or www.wessexdoors.co.uk for full details.
