Retail Price List Garage Doors

www.seceuroglide.co.uk

From security and safety to styles and finishes, SeceuroGlide has it all.

At first glance, you'd be forgiven for assuming that all garage doors are the same. Look a little closer and you'll discover that SeceuroGlide has taken garage door design and technology to the next level.

Developed by industry experts, SeceuroGlide Garage Doors are packed full of clever and unique features, making them the number one choice for quality, safety and security.

- Choice of roller, sectional and side-sliding doors
- Electric operation at the touch of a button
- Insulated cores keep the heat in and cold out
- Advanced security features
- Space-saving designs mean you can park right up to your door
- Choice of powerful motors with up to 7-year automation warranty
- Enhanced safety features built in as standard
- 2 stylish handsets included with every door
- Designed and made in Britain

SeceuroGlide Original: Rosewood Woodgrain

SeceuroGlide Manual: Anthracite

An elegantly simple, yet well proven design.

SeceuroGlide is robust, reliable and durable – offering secure protection for your car and home.

A choice of low maintenance finishes, insulation and the convenience of remote automatic operation powered by a high quality SeceuroDrive Motor as standard make SeceuroGlide Roller Garage Doors an excellent all round choice.

SeceuroGlide's aluminium slats lock into position to resist attack by intruders, while advanced insulation and brush sealing keeps out the cold and makes the door as weatherproof as it is secure. Vertical opening means you can make maximum use of your drive and garage space – parking safely just inches from the door.

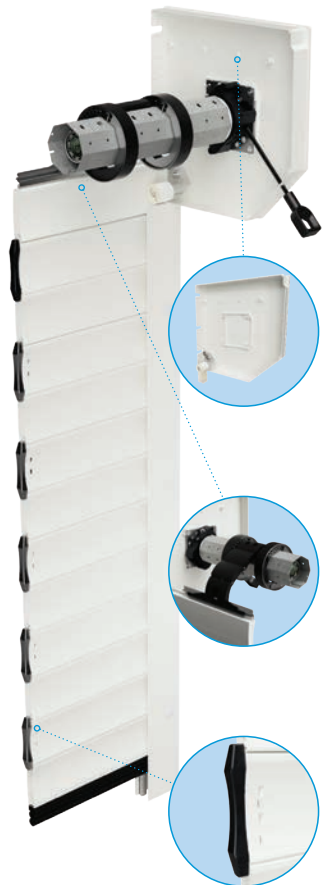

SeceuroGlide Roller Garage Doors are supplied complete with your choice of remote control, SeceuroSense Plus or Somfy Rollixo. You'll have a choice of handsets and the control equipment will include a courtesy light, bottom slat transmitter, safety edge and manual controls to operate the garage door.

A wide choice of finishes including Woodgrain and Painted Woodgrain help you to match your door to existing paintwork or woodgrain double glazing for a coherent look to your home's exterior. Our SeceuroGlide Original and SeceuroGlide Excel is also available powder coated to any RAL or BS number for a surcharge.

SeceuroGlide Excel combines all the benefits of SeceuroGlide Original with an even higher security specification, and is officially tested and approved to Police and insurance standards. Available at a surcharge on the price of a SeceuroGlide Original.

SeceuroGlide | LT Standard, Insulated Garage Door

Aluminium End Plate

Standard, aluminium cast end plate.

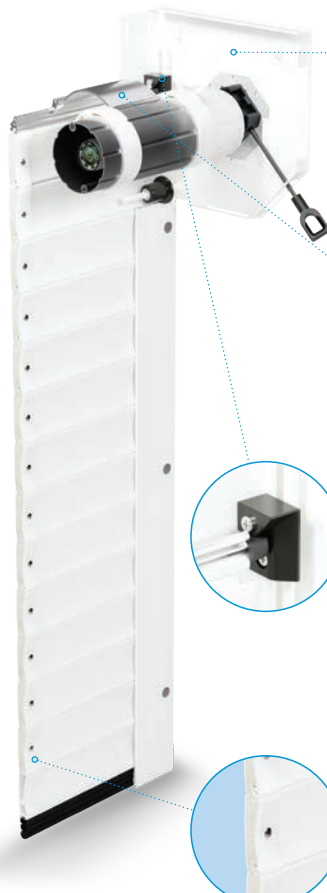

Standard Locking System

A 70 mm axle alongside spring loaded plastic locking straps secure the standard SeceuroGlide LT.

Endlocks

Crimped and stapled endlocks used to secure the curtain in operation.

SeceuroGlide | Original Secure, Insulated Garage Doors

Steel End Plates

Steel end plates on the SeceuroGlide Original & Excel provide a sturdier design and increased security when compared with aluminium end plates.

Strength & Security

100 mm fluted axle, extruded aluminium hinges & top rail, provide greater strength when the door is in operation and in the locked position.

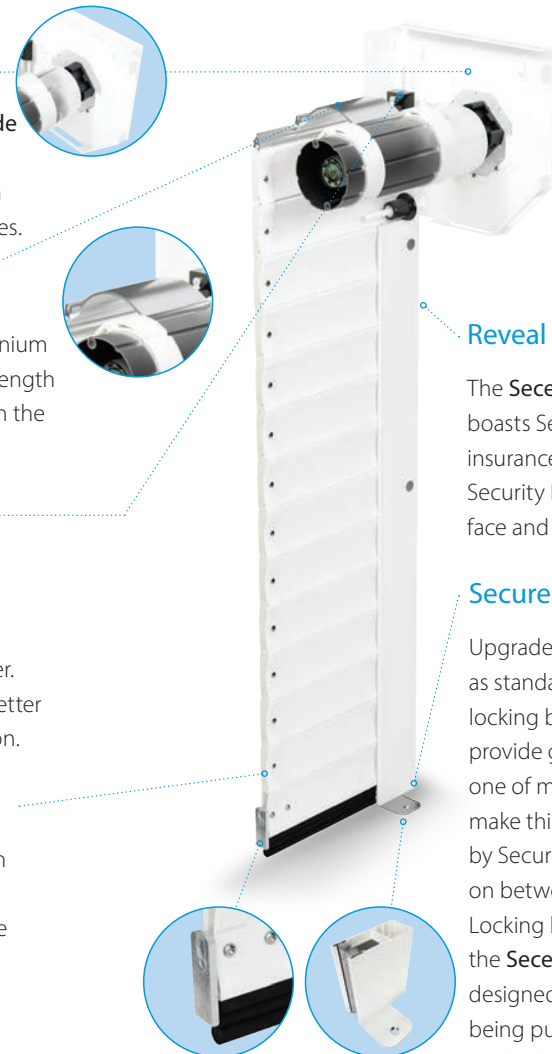

Unique Locking System

Both the Original and the Excel come with auto locking as standard for greater security, preventing the door from being lifted by an intruder. Centralised locking blocks ensure better running of the door during operation.

Security & Noise Reduction

Webbing on each side of the curtain provides additional security whilst also reducing the noise made by the curtain in operation.

SeceuroGlide | Excel High Security, Insulated Garage Doors

Reveal Fit

The SeceuroGlide Excel boasts Secured by Design and insurance approved Level One Security Rating for internal face and reveal fixtures.

Secured by Design

Upgraded 90 mm channels as standard, work alongside locking bottom slats to provide greater security, one of many features which make this door accredited by Secured by Design, even on between fit installations. Locking bottom slat on the SeceuroGlide Excel is designed to prevent the door being pushed out of the guides by an intruder.

SECURE

VERY SECURE

ULTRA SECURE

SeceuroGlide | Original
Secure, Insulated Garage Doors

SeceuroGlide | Excel
High Security, Insulated Garage Doors

SeceuroGlide Original: Anthracite

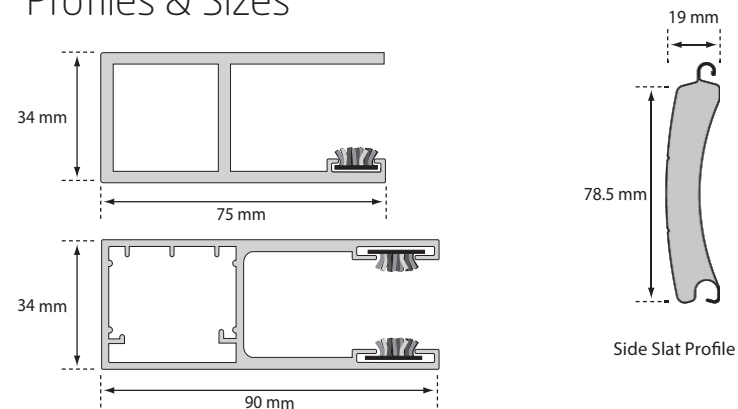

SeceuroGlide Excel: White

Exceptional design and security.

Since the introduction of our hugely popular SeceuroGlide Original back in 1997, we have gone on to develop a series of garage doors which address everything from security and strength, to aesthetics, clever design and ease of use. In addition to the Secured by Design accreditation of the Original, the Excel also meets the higher specification set by the LPCB to create the most advanced roller door on the market.

Profiles & Sizes

SeceuroGlide Excel guide rail notes:

- 90 mm guide rails supplied as standard on SeceuroGlide Excel.
- Reveal fitted guide rails require steel reinforcement plates.

Unique locking system

Both the Original and the Excel come with auto locking as standard for greater security.

Webbing

Webbing provides additional security, weatherproofing and noise reduction.

Strength and Security

100 mm fluted axle, extruded aluminium hinges and top rail make for a secure operation.

SeceuroGlide LT: Fir Green

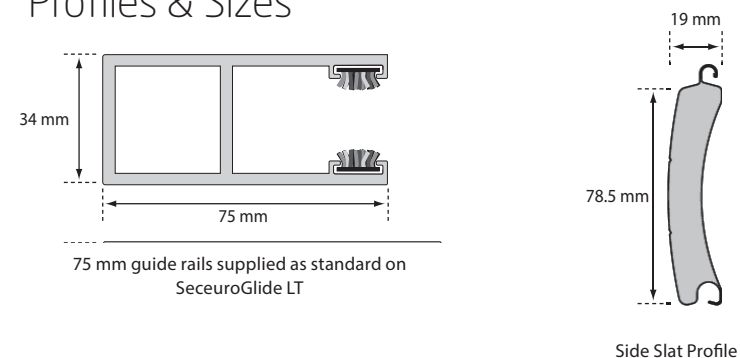

SeceuroGlide LT: Black

The versatile roller garage door.

The entry level SeceuroGlide LT has been created as the perfect solution for those wanting to invest in the look and feel of the SeceuroGlide Original but without a need for all of the high security benefits and built-in noise reduction features offered by the standard SeceuroGlide product. Combining space saving vertical operation with the benefits of an insulated profile and the convenience of electrical operation the SeceuroGlide LT provides a made to measure solution to give lasting value to your property.

Profiles & Sizes

Aluminium End Plate
Standard, aluminium cast end plate.

Standard Locking System
Improved aluminium locking straps secure the LT.

Endlocks
Endlocks used to secure the curtain in operation.

SeceuroGlide Compact: White Colour Finish

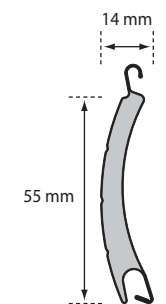

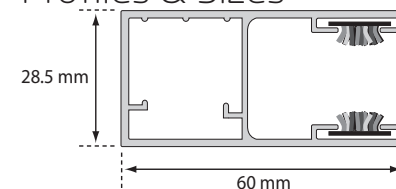

SeceuroGlide Compact: White Colour Finish

SeceuroGlide Compact internal/external fitting roller garage door.

The SeceuroGlide Compact has been developed especially for garages with limited headroom. SeceuroGlide Compact's insulated aluminium slats are narrower than those used for the SeceuroGlide allowing a tighter, smaller coil which requires just 8" (205 mm) clearance above the opening height. An extensive range of sizes also means openings of up to 3000 mm wide (Overall Guide Width) can be accommodated.

Profiles & Sizes

Side Slat Profile

End Plate

The Compact features a ridged locking system for peace-of-mind security.

Slimline Design

The Compact's slimline slat is fully insulated, yet has an exposed face just 55 mm high.

SeceuroGlide Manual: Agate Grey Colour Finish

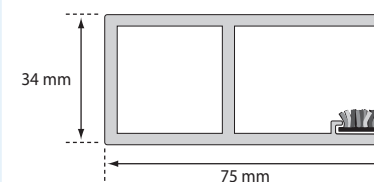

SeceuroGlide Manual: Anthracite Colour Finish

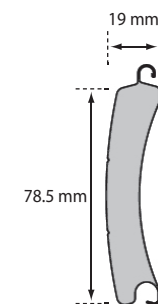

SeceuroGlide Manual the only insulated manual roller garage door on the market.

Developed to the same high standards and build quality as the SeceuroGlide range, SeceuroGlide Manual offers the ideal solution for applications where electricity is not available. The SeceuroGlide Manual has been engineered with ease of use in mind to provide the smoothest operation, whilst still offering the high levels of security and insulation.

Profiles & Sizes

75 mm guide rails supplied as standard on SeceuroGlide Manual

Side Slat Profile

Smooth Operation

The rolling bracket ensures smooth operation and reduces wear.

Strengthening Bottom Slat

Patented bottom slat profile provides strength and aids operation.

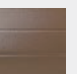

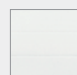

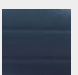

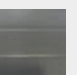

Insulated Slats

Foam filled aluminium slats.

PLEASE NOTE: Painted Woodgrains and Foiled Woodgrain Colours are not available on our SeceuroGlide Manual Garage Door.

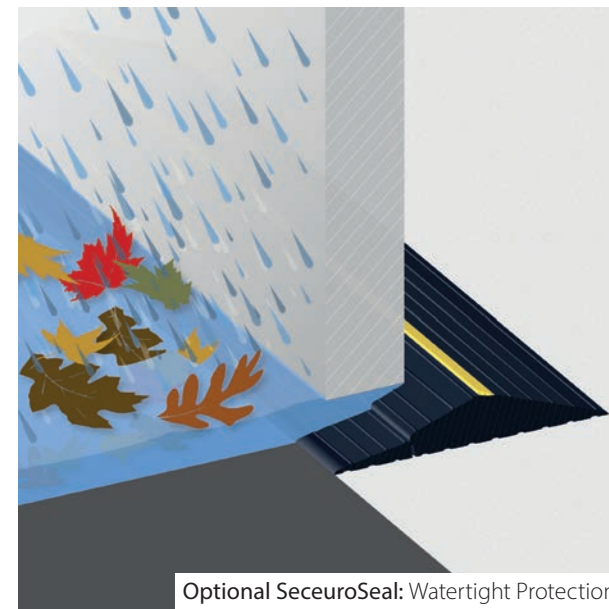

KEY OPERATION

The key operated lock is located in the middle of the door. Integrated handles are located in the middle and at the bottom for convenient operation from inside or outside the garage.

SeceuroSeal

The all-in-one garage door seal

In partnership with the Weather Defender

Optional SeceuroSeal: Watertight Protection

SECEUROSEAL

SeceuroSeal provides a watertight seal and a physical barrier to prevent water and debris entering the garage. Particularly useful for garages with uneven floors, or those that lie at the bottom of a sloping driveway, SeceuroSeal is fitted on the ground underneath the door and has been developed to ensure garages are kept dry and clean, even in the worst of the British weather.

SeceuroSeal is supplied flat in pre-cut lengths for **£26.30 per metre**. SeceuroSeal Adhesive (290ml) is available for **£17.12 each**.

SeceuroGlide Vertico: White Colour Finish

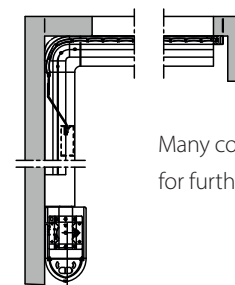

SeceuroGlide Vertico: White Colour Finish

Our lateral running door offers a unique and stylish solution for any garage design.

The Vertico makes the most of your garage space and creating a design feature for your home. Vertico is made from aluminium foam filled slats which link together to ensure exceptionally smooth operation and insulation, making the Vertico an ideal choice for heated garages and workshops. The vertical design offers partial opening ensuring minimal heat-loss and provides a convenient solution for pedestrian or bicycle access.

Configuration Examples

Many configurations are possible, for further examples, please scan the QR code.

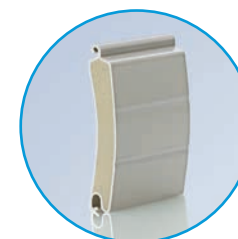

Space Saving

Park next to door without affecting the door's operation.

Headroom

Only 50 mm of headroom required.

Insulated Slats

CFC-free foam-filled aluminium slat design.

EXCLUSIVE Anthracite Smooth Vertical Rib

Make an Entrance with SeceuroGlide Sectional Garage Doors

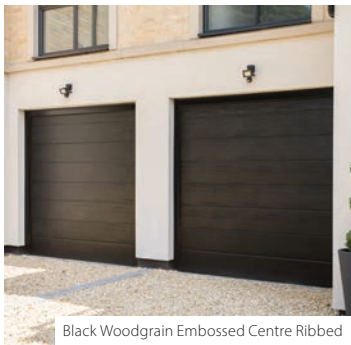

By choosing a SeceuroGlide Sectional garage door, you are investing in a product that has it all; security, kerb-appeal, ease of operation and choice.

Providing reliable performance when you need it most, SeceuroGlide Sectionals are designed to accommodate everyday modern life, yet every bespoke door can be configured to match your own personal style and requirements. With an emphasis on choice, you are in control of how your door is operated (choose from manual or electric) and with an extensive choice of colours, finishes, panels and accessories, how your door looks is down to you.

Good looks doesn't mean a compromise on safety as every electrically operated SeceuroGlide Sectional has obstacle detection built into the motor, which means it will never close when anything is detected in its path, providing perfect peace of mind for all the family.

A Smart Way of Living

With its easier-than-ever installation and programming, the new TaHoma Switch enables to you to operate your garage door, motorised blinds, gates, awnings and lights at anytime, from anywhere, all in one place.

EASY HOME AUTOMATION

- Easy plug in and go set-up
- Can be installed anywhere in your home thanks to WiFi connectivity
- Customise each button to create your own personalised scenarios
- Operate everything from one place with the Somfy app
- Convenient voice control for on-the-go operation
- Compatible with over 300 products including Amazon Alexa, Google Home, Sonos, Hive, IFTTT and many more

2 WAYS TO ORDER ONLINE

1 Bespoke Sizes

Enter your opening height and we'll produce a made-to-measure door that will fit the opening perfectly.

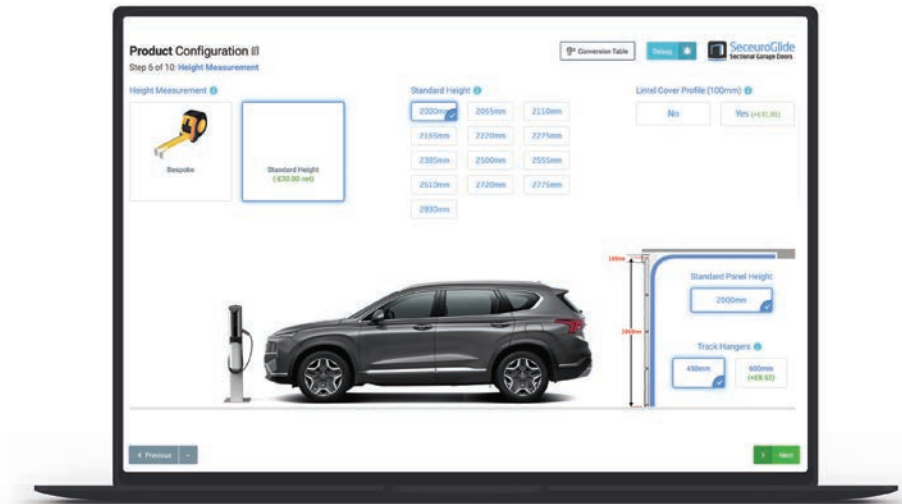

Bespoke doors are priced and ordered on the basis of between track legs and floor to underside of fascia.

or

2 Standard Sizes

Select from the standard heights below for a £30 nett reduction and our fastest available lead times.

Standard height doors are configured with an optional 100 mm cover profile and are priced and ordered on the basis of between track legs and total panel height.

IMPORTANT INFORMATION

SECEUROGLIDE COMPLIANCE WITH THE LATEST CE STANDARDS

The SeceuroGlide range is fully compliant with the latest UK product directives and standards including BS EN 13241-1 applicable from the 1st May 2005.

COMPLIANCE WITH CURRENT LEGISLATION

- To ensure compliance with the Construction Products Regulation SeceuroGlide Compact must be installed with either a SeceuroSense Plus / Rollixo remote control or a 'hold-to-run' switch or key switch.
- We recommend the use of photocells in addition to the standard bottom slat sensor in garages where a vehicle will be parked close to the door. Moreover, where a door opens directly onto a pavement or in a public area, a combination of bottom slat sensor and photocells is a statutory requirement.
- Antidrop devices are supplied when required at no extra cost.
- If planning to operate a garage door with Somfy home automation equipment, then the door must be fitted with photocells.
- If ordering photocells retrospectively, the panel will need to be checked for compatibility. For more information please contact our Technical Support line on 01524 772 400.

SECEUROGLIDE EXTREME WEATHER CONDITIONS

High winds and high temperatures can cause increased deflection of the door. It is the installer's responsibility to ensure that the door is packed off the wall sufficiently to allow for door movement during these extreme weather conditions.

Please note darker coloured double doors that are exposed to significant direct sunlight may be susceptible to expansion which may interfere with the operation of the door.

Whilst the garage door profiles and panels are primed and coated for the external environment – any doors fitted in coastal environments may be at risk of deterioration due to the weather conditions. Ensure you keep your door clean and follow the instructions for cleaning the door in the operating and maintenance instructions.

Please note: if a door is situated in an exposed location and subjected to very high winds and driving rain, the SeceuroGlide range does not guarantee against water ingress. As part of the product's testing for the CE or UKCA marking, the product has not been tested against this and as such is classified as NPD (No Performance Declared).

SECURITY AND RESISTANCE TO HIGH WINDS

SeceuroGlide Original and Excel doors tested to a minimum Class 2 wind resistance classification, which is equivalent to 59mph winds (Force 10 Storm).

SeceuroGlide Sectional Doors tested to a Class 5 wind resistance classification, which is equivalent to 114mph winds (Force 14 Storm).

SECEUROGLIDE ROLLER FITTING

- SeceuroGlide Excel must always be fitted internal face fitted / reveal fitted.
- When fitted externally SeceuroGlide Original will always be supplied with a full box.
- SeceuroGlide Compact external comes supplied with a full box.
- SeceuroGlide Manual can only be fitted internally.
- A low level override option not available for SeceuroGlide Excel. Where the garage door is the only means of exit from a garage, a low level override can be supplied, however this will affect the Level 1 certification and SBD certification will not be supplied.
- If vented slats are selected as an option on SeceuroGlide Original or Excel, they will be supplied, however, this will affect the Level 1 and SBD accreditation and the security certification will not be supplied.
- Unless requested otherwise, when installed internally, tubular motors will be fitted on the left hand side of each door (when viewed from inside the garage looking out). Alternatively, unless requested otherwise, when installed externally, tubular motors will be fitted on the left hand side of each door (when viewed from outside the garage looking in).

SECEUROGLIDE COLOURS AND FINISHES

- Powder coated boxes, guides, bottom and locking slats may be a slightly different shade to the curtain.
- Powder coated cover profiles and executive frames may be a slightly different shade to the panels.
- Other Renolit woodgrain finishes are available at the same cost as the standard Foiled Woodgrain colours, however longer lead times may apply.
- Longer lead times also apply for Georgian Cassette sectional doors in Smooth White and Smooth Golden Oak.
- SeceuroGlide Compact textured woodgrain doors are supplied with matching bottom slats and brown inner face, guides, end plates and half box as standard.
- SeceuroGlide Manual is NOT AVAILABLE in Woodgrain or Painted Woodgrain
- For woodgrain effect doors, any vision/vented slats will be supplied in a solid colour nearest to the colour of the woodgrain. Golden Oak will be supplied with brown. Vision slats are NOT available on the Compact or the Manual.
- Marking may occur at the top of the concave (coil) side of the curtain over time. This is unavoidable and due to prolonged contact with the locking system.
- Any Matched RAL colour garage doors are finished in a low gloss finish which is similar in gloss level to the precoated colours.

SECEUROGLIDE SECTIONAL FORCE TESTING

When a SeceuroGlide Sectional door is supplied motor ready, the installer is required to carry out force testing and is responsible for ensuring the results are within the permitted force.

DELIVERY, PACKING & WARRANTIES

Delivery Charges	Price (£)
Over £450 net on standard run	Nil
Under £450 net on standard run	48.50

Central London	4.00

Delivery Service

Our standard delivery service covers England and Wales weekly, Scotland and Ireland fortnightly. Our pricing includes delivery on all orders over £450 on our standard weekly service. Additional chargeable deliveries can often be arranged with your internal account manager. We also offer home/site delivery service options with one or two men depending on the size of delivery and site conditions. Delivery confirmations for our own dedicated service will be emailed or texted the previous afternoon to confirm if AM or PM the following working day. Please ensure an email address and/or mobile number is supplied on your order.

IMPORTANT DELIVERY NOTES: Site deliveries will only be made if the installer is in attendance to assist off loading or if extra help with off loading has been arranged. The most cost effective and safest way of delivering orders is via our own transport

For urgent orders in certain areas of the country, collection is possible from our 3 distribution depots (must be collected within 24 hours):

South (Heathrow)

Units 2, 3 & 4, Lakeside Industrial Estate, Lakeside Road, Colnbrook SL3 0ED

Midlands (Willenhall)

DX Freight, Unit 1 Bays 1, 2, 3 East Acre, Off Long Acre, Willenhall WV13 2JZ

Bristol

Jupiter Road, Patchway, Bristol BS34 5BW

COMPONENT ORDERS

All small component orders required next day must be received by 2 pm the day before delivery. Orders placed on a Friday must be received by 12 noon for delivery on Monday.

If you require powder-coated items, please allow an additional 24 hours at least from the receipt of order. Items for assembly need to be booked in for manufacturing – for example complete shutter curtains. Please allow a minimum of three working days depending on the delivery method.

Regrettably it is not possible to send items over 5 m in length by overnight carriers.

CRATE CHARGES

We can offer delivery by crate on a POA basis. Please speak to Customer Services.

SWS UK is proud to be an official supporting supplier of The Association Of Garage Door Specialists. In line with SWS UK's policy of continuous product development, we reserve the right to make changes without prior notification. All information is believed correct at the time of publication, errors and omissions excepted.

DELIVERY CHECK-LIST

A. Pre-delivery

- A postcode must be supplied for all delivery addresses.
- We currently operate a range of delivery vehicles. It is therefore important to check the lorry's dimensions when arranging a delivery for the first time.
- If you require a delivery to site you must supply us with a contact name and a contact telephone number of the person who will assist the driver to unload.

B. Receipt of goods – own premises

- We require a person to assist off-load, check and sign for goods.
- For large deliveries, please ensure you have several people to assist, this will minimise any delays for subsequent customers.
- Deliveries received must be checked before signing the delivery note. It is not possible to claim compensation for damaged or missing items unless highlighted on the drivers delivery notes. If possible take a copy of this documentation for future reference.

C. Receipt of goods – to site

- Deliveries will only be made to site if an installer is present to assist the driver with unloading and to check and sign for the goods.
- For large deliveries, please ensure you have several people to assist, this will minimise any delays for subsequent customers.
- Before the goods arrive, please prepare a location to unload and store the items safely and securely.
- Deliveries received by overnight carrier must be checked before signing the delivery note. It is not possible to claim compensation for damaged or missing items unless highlighted on the drivers delivery notes. If possible take a copy of this documentation for future reference

D. Claims for damages

- Please check the contents of your order against the delivery note on the day received. Care should be taken when using sharp objects to cut through the packaging.
- Claims for missing or damaged items will only be processed if the drivers delivery note has been signed for as damaged or missing and must be reported within 2 days of delivery.

IF YOU SUSPECT DAMAGE Please fully inspect the product prior to signing. If the product is damage, clearly state "DAMAGED" when signing the consignment note. Signing as "Unchecked" is insufficient.

APPROVED SUPPLIER:

SECEUROGLIDE PEACE-OF-MIND WARRANTIES

SeceuroGlide Excel, SeceuroGlide Original, SeceuroGlide LT, SeceuroGlide Compact and SeceuroGlide Manual are guaranteed against defect of material or workmanship by SWS UK with a parts only warranty for a period of 5 years from the date of purchase, subject to correct installation, maintenance and operation. When purchased together, the SeceuroDrive motor and SeceuroSense control unit carry a 7 year warranty, subject to registration (www.seceuroglide.co.uk) within 3 months of installation (excluding LT). When purchased together, the Somfy motor and Rollixo control unit carry a 7 year warranty, subject to registration (www.seceuroglide.co.uk) within 3 months of installation (excluding LT). Foiled woodgrain finishes (including the full range of Renolit wood effect finishes) are guaranteed for a period of 10 years from the date of purchase.

SeceuroGlide Vertico is guaranteed for a period of 2 years from the date of purchase, subject to correct installation, maintenance and operation
